

## Business Process Library

A digital library of prebuilt e-form and workflow templates designed for fast process automation deployment

- Templates range from key departments, such as accounting, HR and IT, to industry-specific solutions, such as construction services, education, finance, government and healthcare
- Prebuilt process diagrams, forms, workflows, template fields and reports are easily configurable to fit specific requirements
- Process templates are available free of charge to all Laserfiche Forms customers with active software support plans. Additional customization and training can be provided by your value added reseller. Please contact them for pricing and support options.

Search prebuilt e-form templates by industry or category, right from Laserfiche Forms

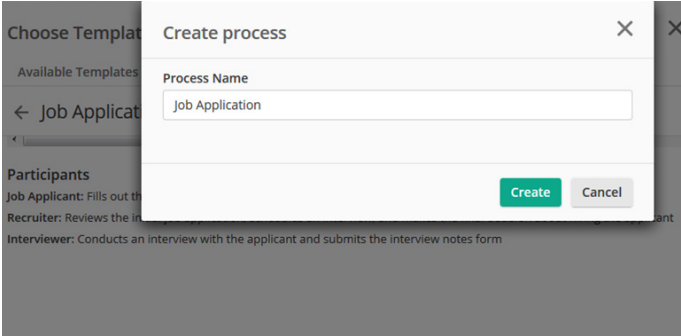

Preview template process diagram, e-form layout, process participants, and sample reports before downloading it

# Four Simple Steps to e-Form-Enabled Process Automation

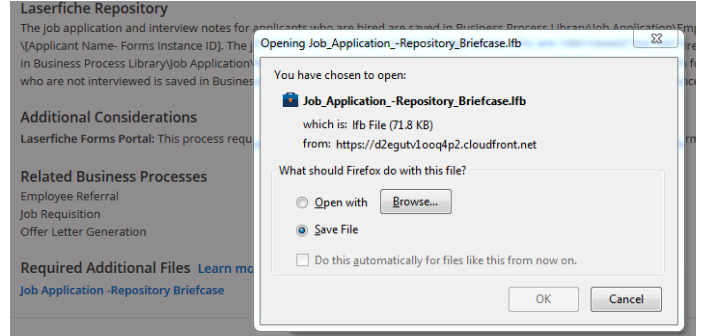

## 1 DOWNLOAD

Download prebuilt Forms processes directly from Laserfiche Forms.

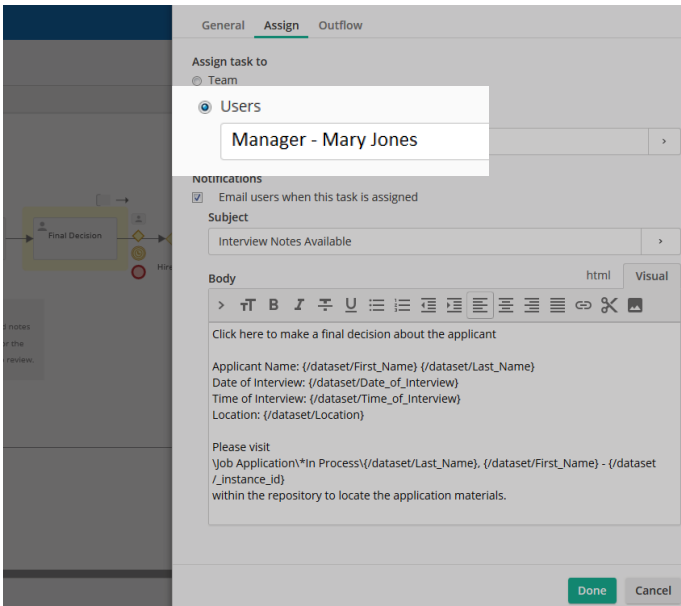

## 2 IMPORT

Import additional required components including repository briefcases and Workflow files.

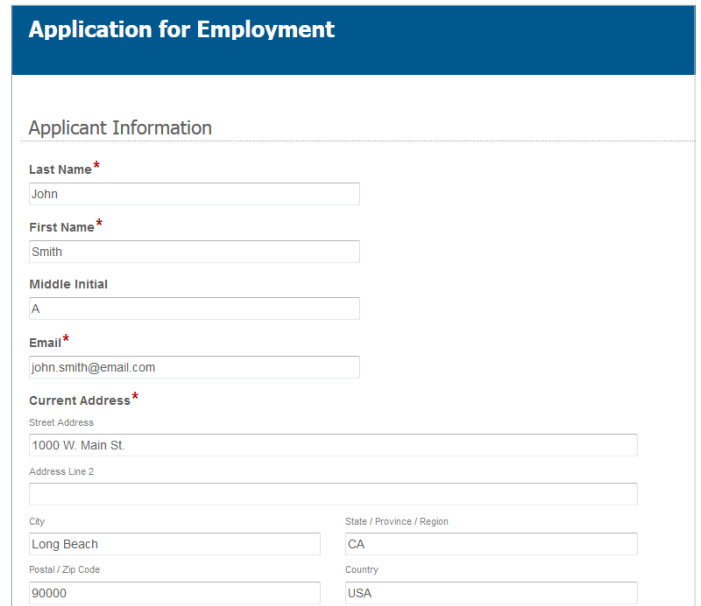

## 3 CONFIGURE

Configure prebuilt forms and processes to meet specific organizational needs.

## 4 DEPLOY

Quickly deploy automated processes in a single department or throughout the entire organization.
